

# CALPROC

USER GUIDE

# WELCOME TO CALPROC

CalProc is for government employees within California who need to procure computing hardware, software and related services from pre-established state contracts, the "CalProc" procurement system provides ordering, tracking and analysis features. Also, it allows employees of the state's leading purchasing organization the ability to publish product and service information and then track and analyze order data.

# Shop/Compare Items

The shop page allows you to locate a specific item. You are able to sort/filter based on criteria including price and date added.

## Compare items

Selecting the checkboxes in the top right of an item and then clicking “Compare Items” button will take you to the compare item detail page (See Compare Item Detail).

# Item Detail

The item detail page allows you to see the specific details of a product. You will also be able to view the average rating and edit the quantity using the plus and minus buttons before adding it to the cart. In addition, you can click or press the thumbnails to view the larger versions of the various images.
